**'Where learning is irresistible'**

## Professional Development Opportunities at Pinewood

We have always had lots of requests to visit our setting, which makes us very proud - we love working with other professionals. Since our most recent 'outstanding' Ofsted in November 2023 we have been inundated with requests. To make this manageable for our school staffing team, whilst still offering real quality opportunities to teaching professionals, we are offering different opportunities to visit our inspirational school that will now incur a small charge.

**Half day visits to our school at a charge of £90 per setting** (*for up to 3 people; additional attendees will be charged £25 per person*)

We can also arrange a reciprocal visit if you would like one of our outstanding EYFS practitioners to visit your School/setting to offer support at a cost of £295 per day which would cover their cost to school (salary and on costs) to be away from school for the day.

**Contact us on the details below if you are interested:**

# 'Where learning is irresistible'

**These visits can be for either the EYFS and for KS1 and will consist of:**

- ♦ Meet the Head Teacher and have a tour around school.
- ♦ The opportunity to observe our school in action.
- ♦ Opportunity to observe and photograph our outdoor provision.
- ♦ Discussions with outstanding teaching staff.

Bespoke visit opportunities to Pinewood are also available at the same cost with discussions that could include approaches to pupil premium, approaches to attendance, British Values, subject co-ordination, early reading . . . The list is endless!

We can also support others in terms of documentation but there will be an administration fee involved due to a vast amount of requests.

In addition to the above, depending on requests, we are considering running a full day training event entitled 'Outstanding practice in the Early Years' and 'Outstanding practice in KS1' at the charge of £190 for the full day. This will cover core curriculum principles, planning approaches, environment, early reading – and will show our approach as a school for delivering an outstanding education for our young people.
